### Tips on Service Descriptions:

- Provide contact information for the person you want people who are interested in your services to contact. Try to avoid using automated general numbers if possible.
- If you are an adoption or foster care agency recruiting prospective families please include information about your homestudy process (i.e. frequency of orientations or classes, time frames, special requirements etc.)
- If you are a parent support group add frequency/location of meetings, services your group provides (i.e. newsletters, social events, training, kids groups, etc.) and your target membership.
- If you are an agency facilitated parent group we suggest you add a F/A parent member contact in addition to the agency contact person, and information about service availability for non-agency families.
- You may choose to have separate listings for different agency services (i.e. adoption, foster care, support groups). If so, complete a separate form for each service.
